FEDERATE

Software-Defined Vehicle Support and Coordination Project

The FEDERATE project aims to bring together all relevant stakeholders of the mobility industry, the open-source software community, the semiconductor industry, and public authorities to accelerate the development of an SDV Ecosystem, to foster a vibrant European community and to orchestrate the SDV Research, Development and Innovation activities.

Vision and Roadmap

European Software-Defined Vehicle of the Future (SDVoF) Initiative – Vision and Roadmap

Authors: FEDERATE Consortium, SDVoF Sherpa Governance Team
